Seat Covers

Look at these beautiful new seat covers! They are USA made in the correct colors, patterns & textures as original. Authentic factory-style stitching, piping & heat-stamped patterns will make your car look as it did when it was new on the dealer's floor. Give your ride a great foundation for an awesome finished passenger compartment. To see samples of the colors for your new seat covers, call for a free color sample card. Better yet, order the correct seat upholstery package today from the list below!

- **Correct stitching as original**
- **Faithfully reproduced colors, patterns & textures**
- **Authentic piping, just like that used by Ford**
- **Heat stamped patterns, as original**

All seat covers are oversized & require additional shipping charges

Vinyl Protectant

Keep that dash pad looking brand new for years to come. Protect your new dash pad from harmful UV rays with our Raggtopp™ vinyl protectant. It's so easy to use; just spray it on, wipe it dry & you're done. It is specially formulated to repel dust, dirt & grease, plus it contains no silicones so it's not slippery to the touch when it dries. Packaged in a convenient 16-ounce pump spray bottle.

ALL	For interior or exterior vinyl	RSP11415	16.95
-----	--------------------------------	----------	-------

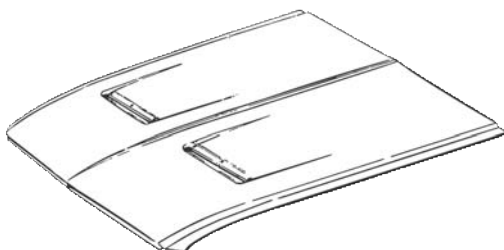

Hoods

All hoods are shipped in special boxes to avoid damage. These boxes can only be shipped by truck.

TRUCK RATE NOTE: charges range from \$100.00-\$175.00 or more. Trucking companies can also charge approximately \$25.00 for a residential delivery & approximately \$25.00 to notify you by telephone about your delivery, if you request notification. There is also a \$10.00 boxing charge. Truck freight charges are C.O.D., meaning you have to pay the driver at the time of delivery. However, the hood must be pre-paid. Truck freight charges apply whether shipped to you or picked up at our store.

**1969-73 351 Cleveland V-8**

Which 351 engine do you have? With three different engines designated as "351 cubic inches," Ford engineers seemed to have intended to confuse Ford enthusiasts. But identifying the different engines is really not that difficult, once you get the hang of it. First, the 351 "Cleveland" engine family utilizes 8 valve cover bolts & uses a fuel pump that is mounted with two bolts in a vertical pattern; in a straight line up & down. The 351 "Windsor" engine has 6 valve cover bolts & has a fuel pump attached with two bolts that are horizontal from each other; in a straight line horizontally. Also, the thermostat housing is attached to the actual engine block on all 351C engines, while 351W engines feature a thermostat that is installed on the intake manifold.

New Gas Tanks

No one wants to be stranded on the side of the road because of a rusting, leaky fuel tank. Replace your problematic tank with a quality stamped steel gas tank from MAC's. You'll have the peace of mind knowing that your new tank will be trouble-free for years to come. When installing your new gas tank, be sure to replace the sending unit "O" ring seal (item COAF-9276-A, on the following page) & install a new lock ring (COAZ-9A307-B) listed below!

 **OS** All gas tanks are oversized & require additional shipping charges

- 64-68 Without drain plug,
16 gallons (not shown) C5ZZ-9002-DR 99.95

- 64-68 With drain plug, 16 gallons C5ZZ-9002-DRP 110.95

- 1969 Without drain plug, 20 gallons. . . C9ZZ-9002-AR 126.95

- 1970 Without evaporative emissions,
22 gallons DOZZ-9002-AR 115.95

- 71-73 Includes lock ring & seal,
20 gallons D1ZZ-9002-A 155.95

Gas Tank Hardware

- | | | | |
|-------|--|--------------|----------|
| 64-68 | Fuel hose clamp kit, 2 clamps | 3HK31B | 2.95 kit |

71-73	Manual steering	D1ZZ-3590-A	78.95

Rebuilt Steering Gearbox

MAC's can rebuild most any gearbox. Send us your used gearbox & we'll disassemble, clean, inspect & repair any problems. Include your daytime phone number so we can contact you if necessary. Turnaround time is 10 to 14 days from the date we receive your gearbox. Prices range from \$200.00-\$450.00. If we have to supply a sector shaft, the additional cost will be \$45.00-\$75.00 dollars, depending on the model & availability. A cracked or broken housing might be repairable or replaceable & will result in additional charges. If for any reason, after disassembly & inspection, you decide not to proceed promptly with the rebuilding, only the return shipping costs will be charged.

Wiring Harness Retainers

You say your 35-year-old wiring harnesses are falling apart so you're going to replace them? Take a look at the retainers that hold your harnesses in place at the frame rails & on the fender aprons. Are most of the plastic ones broken & the metal ones rusted thru the outer rubber coating? Your rewiring job isn't complete until you use MAC's new retainers to secure all those beautiful new wires. Listed below are the three most popular retainers that Ford used to hold a wiring harness in place... or, take it one step further—buy one of our mounting kits & get everything that held your harnesses in place all in one neat package!

Wiring Harness Mounting Kits

64-66	21 pieces (shown)	C5ZZ-14000-KT	10.95 kit
1967	25 pieces	C7ZZ-14000-KT	19.95 kit

| 71-73 | MAC'S Black, with gaskets, mounting hardware & brackets. D1ZZ-6344210-KT | 183.95 kit |

Export Braces

Originally designed for the GT350 to prevent body flex by connecting the shock towers to the firewall. This popular accessory is available painted or, for that custom look, in gleaming chrome.

- | | | |
|-------|---|-------|
| 64-70 | Painted. C5ZZ-16A052-ER | 39.95 |
| 64-70 | Chrome (shown). C5ZZ-16A052-ERC | 46.95 |

Monte Carlo Bars

Further strengthen your front end by adding this to the export brace. Available painted or chromed. The curved bar is designed to clear the oval "Cobra" air cleaner

- | | | |
|-------|--|-------|
| 64-66 | Curved, painted (shown). C5ZZ-16A052-K | 21.95 |
| 64-66 | Straight, painted. C5ZZ-16A052-H | 21.95 |
